

RUG & CARPET PROTECTOR

PROTECTS & REPELS

Sure Seal® Rug & Carpet Protector is a low odour, deep penetrating formulation that helps prevent oil and water-based staining on all types of rugs and carpets, including pure wool, synthetic, Persian & Oriental rugs and carpet. It protects against spotting, staining and permanent soiling, yet lets you enjoy the luxury, warmth and beauty that these fabrics provide.

Sure Seal® Rug & Carpet Protector penetrates deep into the fibres and forms an invisible barrier around each fibre without affecting the feel or appearance and greatly increases their life by reducing the thread friction and abrasive action of embedded dirt. As a result, rugs and carpet last longer, look better and clean easier!

BENEFITS & CHARACTERISTICS:

- Suitable for use on all rugs & carpet
- Ready to use and easy to apply
- Low odour and dries invisible
- Resists water and oil based stains
- Allows the treated area to breathe
- Effective anti-mildew properties
- Long lasting up to 5 years or 3 steam cleans
- Resists UV light degradation
- Preserves and protects without changing the original colour or appearance of treated surfaces!

Pack Size:

Available in 350gm Aerosol and 20 Litre containers

Application Instructions: All surfaces must be clean and free from debris. Always test product in an inconspicuous area for suitability. Use as is. Do not dilute. Hold sprayer approx. 30-40 cm above the surface to be treated. In a slow, sweeping motion, spray on rug or carpet evenly. Drying time is approximately 1-2 hours at which time repellency can be checked with small drops of water. Water beading should occur when drops of water are applied onto the surface. Remove water by pressing down gently with white paper towel.

Note: One coat is usually sufficient, but on thick-pile carpet or rugs, or heavily used areas, two coats are recommended for optimum results. If second coat is needed, follow initial application instructions.

After Care Instructions: If a spillage occurs, absorb immediately with a clean cloth or white paper towel. A sponge and cold clean water should be used on any residue or a dried liquid. Do not scrub. For a semi-solid or greasy stain, scrape and remove most of the material with a spoon or blunt knife. Mix warm water with a small amount of mild detergent and sponge gently until the stain is removed. It is most important that the residue of detergent be removed immediately with clean, clear water.

Technical Data:

Coverage: One 350g Aerosol can will cover approximately up to 6m². One litre will cover up to approximately 15m² of rug or carpet depending on the method of application.

Pack size: 350gm Aerosol can and 20 Litre drums

Physical Properties: Clear, colourless liquid

Odour: Mild chemical (solvent) odour

Volatiles: No specific data. Expected to be low at 100°C

First Aid and Safety Information: **Ingestion:** If swallowed DO NOT induce vomiting. Wash mouth with water then contact a doctor or Poisons Information Centre. **Inhalation:** If inhaled, provide fresh air. In case of respiratory difficulty seek medical attention. **Eyes:** Immediately flush eyes with water for at least 15 minutes. Contact a doctor if irritation

Disclaimer:

The information given in this data sheet is based on many years of experience and is correct to the best of our knowledge. As the storage, handling and application of this material is beyond our control; we can only be responsible for the quality of our product at the time of dispatch. We reserve the right to alter certain product parameters within the spectrum of properties in order to keep abreast of technical advances. It is the responsibility of the end user to determine the suitability of this material for any particular application

persists. **Skin:** Remove contaminated clothing and wash with soap and water. For further advice, contact a Poisons Information Centre: Phone Australia 131 126, or New Zealand 0800 764 766.

Personal Protective Equipment: No special equipment is usually needed when occasionally handling small quantities. When bulk handling is necessary, or where regular exposure in an occupational setting occurs without proper containment systems, please see Safety Data Sheet for appropriate exposure controls and personal protection advice.

Transport Information:

ADG Code: 1950, AEROSOLS

Liquids 1263 PAINT RELATED MATERIAL

Hazchem Code: 2RE 3[Y]

DG Class: Class 2.1, Flammable gases

Sub Risk: Class 3, Flammable liquids

Packaging Group: 111

Storage and Disposal: Protect from sunlight and do not expose to temperatures exceeding 50°C. Do not pierce or burn even when empty. Dispose of by putting in garbage or leaving at an appropriate metal recycling collection point.

Effective Wear: With proper maintenance the product should last up to 5 years or 3 steam cleans. However, as the manufacturer has no control over the types of cleaning products used or the type of cleaning method, it is recommended that the repellency be checked with small drops of water. Water beading should occur when drops of water are applied onto the surface. Remove water by pressing down gently with white paper towel. Reapply Rug & Carpet Protector if necessary. Note: Harsh cleaning methods and high-alkaline or solvent-based cleaners will affect the life expectancy of the product.

Note: Consult the Safety Data Sheet for full technical and safety details. It is recommended to test the product first on a small inconspicuous area to determine its efficacy or unexpected results.
